By the North Briton, at Portland, we have four days' later dates from Europe. The leading features of the news will be found under our telegraphic head.

The steamer Illinois arrived last evening with \$1,800,000 in treasure and intelligence from California to the 5th inst. We learn by this arrival that an injunction has been issued restraining the New Almaden Quicksilver Mining Company...

Among the passengers by the Illinois, are Senor Mills, Minister from Guatemala to Washington, and Capt. Cavendish of the steamer Hermann.

On Monday next, the XXXVth Congress will convene at the Federal City for its closing Session. Time and events have wrought some change in the constitution of this body since its adjournment last June.

Mr. George H. Purser has the Tammany Hall nomination for Controller of the City, and ardently desires to resign his place of Corporation Attorney at \$5,000 a year...

We believe Kansas is likely to claim little attention from Congress at this Session. The newly-elected Territorial Legislature does not meet till January; and, if it should decide to call a Convention to frame a new State Constitution...

morally certain that their State will not be admitted at this Session, and that Congress will not be required to devote much time to Kansas this Winter. And, should any fresh agitation respecting Slavery arise, we believe the champions of the "institution" will (as usual) inactivate and originate it.

From his advent in the City Hall up to this period, Mr. Purser has been an active and very successful laborer, both here and at Albany. All through the domination of the "Forty Thieves," he was looked upon as the power behind the throne; and, whenever anything was to be carried through, it was deemed a matter of prime necessity to "see Purser" in the outset of the enterprise.

Mr. Purser was appointed Corporation Attorney by the late Lorenzo B. Shepard, and still continues in the office. This position is one of the most desirable under the City Government. Long custom has altogether superseded law, and nothing less than an earthquake would more astonish the people than a Corporation Attorney who should really undertake to do his duty.

—THE HAYS NOMINATED BY THE TAXPAYERS.—The People, or Tax Payers Convention met on Saturday evening, at Thorp's Hotel, A. M. Bininger, esq., in the chair.

of Maria Monk gave new zest to the infidel party, and greatly stimulated the zeal of Purser and his adherents. So violent became the excitement that the house of Bishop Dubois, the predecessor of Archbishop Hughes, was mobbed, while the Bishop was lying upon his death-bed.

Soon after Fanny Wright disappeared, and the Monk disclosures had become understood, the Athlete Agrarians changed their plumage and assumed the classical denomination of Loco-Focos. Mr. Purser now seems to have been comparatively quiet for a time; but when the Barn burners were organized as a division of the Democratic party, he reappeared as one of their leaders, and soon became a man of note in City politics.

The Canadian Steamship Company's screw steamer North Briton, Capt. Thomas Jones, from Liverpool at 11 p. m., on Wednesday, the 17th inst., arrived here at 3 o'clock this morning.

The North Briton has made the passage in ten and a half days. Her advances are four days later than those by the Africa at New-York.

Politics in South Carolina. The subject of the selection of a candidate for the seat in the Senate of the United States, left vacant by the death of Mr. Evans, is now a prominent question for discussion in our political circles.

Resolutions were introduced into the Senate to-day, declaring that the Constitution of the United States contains no grant of power to interfere with the commerce of foreign nations; that the act of Congress purporting to prohibit the slave-trade between foreign countries are unconstitutional, null and void; also that the act of Congress declaring the slave-trade piracy, inasmuch as it purports to convert into piracy what is not in the nature of things, or in the sense of the Constitution, is unconstitutional, null and void.

—THE CASE OF THE SLAYER ECHO. The United States Circuit Court met in this city on Monday, Judge Wayne of Washington, and Justice of South Carolina, presiding. The charges to the Grand Jury were delivered by both Judges, strongly urging upon the Jury the duty of impartially discharging their oaths of office, and while avoiding unfounded conclusions to suffer no personal feelings to influence their feelings to deter them from presenting for investigation every case where reasonable evidence of guilt exists.

—STEAMBOAT ECLIPSE SUNK. Mobile, Saturday, Nov. 27, 1858. The steamboat Eclipse, from Mobile to Montgomery, struck a snag and sank on the morning of the 17th, a few miles below Cahawba. After stopping the hole she was raised, and proceeded to Montgomery. The water at one time was about three feet over her deck. Her cargo is badly damaged.

—THE BRITISH STEAMER SCOTIA. Savannah, Saturday, Nov. 27, 1858. The British steamer Scotia from Havana, formerly engaged in the Cooley trade, is here seeking a freight for Liverpool.

—THE MISSOURI STATE RAILWAY BONDS. St. Louis, Saturday, Nov. 27, 1858. The State Treasurer of Missouri has given notice that the semi-annual interest on the State railway bonds, due Jan. 1, will be paid at maturity at the Bank of Commerce, New-York.

THE CANDIDATES FOR THE BOARD OF EDUCATION. As the proficiency of the Board of Education has raised it into a little temporary notoriety, some interest is felt in the character of the men who are trying to get seats in it for the years 1859 and 1860.

FIRST WARD.—Samuel And, the present member, first-year, is the Tammany nominee, and will undoubtedly be elected. He has the negative virtue of being a quiet man in the Board, where he does little except to vote with Mr. Wm. Sinclair.

SECOND WARD.—James Watson, letter-carrier, has received the nomination of the united Democracy, and Edward D. Pepper, reporter, that of the Opposition.

THIRD WARD.—R. S. Gould, clothier in Greenwich street, is the Opposition candidate, and will get the most votes; John M. Mcmeem, Tammany, keeps a grogshop in the same street; the name of the anti-Tammany candidate, Van Comp Colburn, is not to be found in the directory. His existence is a matter of great doubt.

FOURTH WARD.—John Henley, the young, rough and ready foreman of "13 Hille," grog-seller, is the Tammany candidate, against Eugene Sides, Custom-House officer, who is the present incumbent, says little in the Board and votes for the largest expenditures.

FIFTH WARD.—In this Ward the singular phenomenon is presented of two candidates, both endorsed by all parties. Wm. B. Eager, Jr., druggist, in Hudson street, is the present incumbent, and is prominent as one of the more valuable members of the Board; a lively opposition, but scarcely strong enough to be successful, is concentrated upon John Hewitt, Jr., a clothier in Hudson street.

SIXTH WARD.—Michael Bogg, Mulberry street grog-seller, is the only nominee. This Ward loses much by the removal of Mr. Wm. Sinclair, the retiring member, to the Twenty-first Ward. The residents of the Ward are endeavoring to induce Mr. Richard Barry, the member who holds over, to resign. So far, he has refused, which is not strange, as he will have ten months in the Board after he has served out his four months in the Penitentiary.

SEVENTH WARD.—William M. Tweed, present member, also a Supervisor, is the Tammany candidate, and can hardly fail of a reelection. In the Board of Education he says little, but has a very efficient way of taking care of his friends, and seldom fails to carry through anything which he attempts. The Anti-Tammany candidate, Cornelius Collins, builder, has been unfortunate in his connection with school affairs. Work which he did on two school buildings has been refused, and in consequence of this experience the Board some time ago declined to give him the contract for repairing No. 5, although he was the lowest bidder.

EIGHTH WARD.—William Tucker, long an abject
